

O.K. everyone who wants to help save Carroll Lake, there are ballots around town in the coffee shops, parts stores, etc that ask you to circle 1 of the 5 options given by TWRA the night of the meeting and place into an envelope or return to City Hall. The options were as follows: (1) Fix the lake back like it was (2) Do Nothing (3) 1/3 Fishing Lake; 2/3 Wildlife Viewing Area (4) Replace sluice gate only (5) Replace sluice gate with lake bottom excavation. The next thing is contact the following people by email or call them to let them we are serious about saving our lake.
